KUNDAN BORA

WEB DESIGNER & DEVELOPER

PROFILE

Dedicated front-end developer and graphic artist with expertise in creating visually appealing and responsive landing pages and redesigning websites for improved usability and aesthetics. Proficient in HTML, CSS, JavaScript, and the Adobe Creative Suite (Photoshop, Illustrator, Figma). Skilled at blending creativity with functionality to deliver engaging user experiences. During my internship, I contributed to multiple front-end development projects, enhancing website performance and modernizing designs to align with user expectations. Seeking a dynamic role to apply my skills in creating user-centric digital solutions while continuing to grow with a forward-thinking team.

WORK EXPERIENCE

● Web Designer & Developer

Hash9 Digital Present

- **MVTS Website Redesign:** Successfully migrated the MVTS website from PHP to React, delivering a modern, high-performance, and responsive platform tailored to user needs.
- **Vatsyayana Resort Landing Page:** Designed and developed a visually captivating landing page with optimized user interaction, boosting lead generation and engagement.
- Collaborated with cross-functional teams to implement innovative design solutions and ensure seamless functionality across devices and browsers

● FreeLance

Saffron Routes

- Designed and developed the complete website for Saffron Routes, a travel company, ensuring user-friendly navigation and visually appealing aesthetics.
- Created wireframes and full-fledged designs in Figma, focusing on simplicity and functionality.
- Added interactive features allowing users to customize tour packages, enhancing user engagement.
